This map depicts the extent and composition of tidal wetlands and submerged aquatic vegetation (SAV) along the Hudson River. This dataset was created by New York State Department of Environmental Conservation, the Cornell Institute for Resource Information Sciences, and the Hudson River National Estuarine Research Reserve.

Creating Natural Resources Inventories (NRIs) in Orange County Communities is a partnership project between OCWA and Cornell University Department of Natural Resources, with funding from the Environmental Protection Fund through the New York State Department of Environmental Conservation Hudson River Estuary Program.
